<https://github.com/AnjalDevJr/animoc-studio>

- Leveraged the UI/UX with fully **responsive design** with the help of Vercel v0 AI.
- Used **react-router-dom** for smooth user experience and better performance
- Implemented **RBAC** to protect admin routes
- Managed form states and validations using **React Hook Form** and **Yup** for smooth user experience.
- Integrated **React Redux** for efficient state and data management.
- Enabled real-time chat interaction using **Socket.IO**.
- Implemented secure **authentication system** with login, registration, OTP verification, password reset, and token-based access using **JWT**, **bcrypt.js**, and **nodemailer**.
- Designed and validated robust backend APIs with **Express.js**, **Joi**, and **MongoDB (Mongoose)**.
- Integrated **Cloudinary** and **Multer** for secure image upload and media handling.

Weather App:

- Built a responsive weather app that fetches and displays real-time weather data using the **OpenWeatherMap API**.
- Parsed and displayed relevant weather details (temperature, humidity, wind speed, etc.) with matching weather icons and dynamic UI.
